

COMPANY PROFILE

Based in Sint-Katelijne-Waver (Belgium), European Food Transport was founded in 1993 by Guido Roels. It joined the UNIVÉG Group in 1997. As its name implies, its main activity is transport of foodstuffs for a.o. companies belonging to the UNIVÉG Group. In 2001 it began order picking activities for several of its customers, followed by repacking activities in 2003. In close cooperation with its customers European Food Transport develops logistic systems for European transport of fruit, vegetables, fruit juices and all other temperature-controlled goods. About 100 permanent employees are employed at EFT Belgium. To fulfill its activities, EFT is also working with sub contractors.

CORE BUSINESS

- National and international transport and distribution of fruit and vegetables, convenience, cooled food, deep-frozen products and medicines.
- Storage, order picking and packing food for other companies with the UNIVÉG Group.
- Transport to Scandinavia by shortsea shipping.
- EFT's main customers are other UNIVÉG Group affiliates and companies trading in fruit, vegetables, convenience, cooled food, deep-frozen products and medicines.
