

Cycle of Freshness

COMPANY PROFILE

The company was founded in November 2005. The activity has expanded rapidly from 2009 to 2011. At present 4 warehouses are operated or managed in the East of the city (Novokosino & Tomilino region).

In Novokosino:

- 1 building, temperature controlled ($\pm 10,000 \text{ m}^2$)

In Trilogy park (Tomilino region):

- 2 buildings, temperature controlled ($\pm 12,500 \text{ m}^2$ and $18,500 \text{ m}^2$)
- 1 building dry cargoes ($\pm 18,500 \text{ m}^2$)

UNIVEG Logistics Russia handles at present the following average monthly volumes:

- Pallets IN or OUT: 110,000 to 130,000 EUR-pallets/month
- Boxes order picking: between 4,5 and 5 mio boxes/month
- X-Docking: between 40,000 and 50,000 EUR-pallets/month

- Trucks IN or OUT: between 8,000 and 10,000 trucks/month

All operations are covered under ISO 9001 & ISO 22000 official certificates.

CORE BUSINESS

- Specialized logistics provider in temperature controlled products (platform operations and transport).
- Key Accounts: major national & international retail groups, but also producers, importers, etc.
- Services include reception, storage, picking, shipping & transport, but also value added services (labeling, sorting, etc.).
- Transport of temperature controlled products to all major destinations in Russia.
- UNIVEG also offers its services for non-food & dry cargo making a “one-stop-shop” principle possible for existing & potential customers.
