

## COMPANY PROFILE

Bakker Barendrecht, founded in 1930 and a member of the UNIVEG Group since 2005, is one of the largest fruit and vegetable companies in the Netherlands and a key player in the production of fresh produce. About 700 employees work in the Netherlands, where Bakker processes almost 1,400 tonnes of fruit and vegetables every day, or about 85 million crates a year. Bakker's main customer is a leading Dutch chain of supermarkets, with which it enjoys a long-term relationship based upon an unique partnership model.

## ACTIVITIES

Sourcing/trading, logistics services and research & development (R&D) are the company's key activities.

## KEY COMPANY FACTS

- Sourcing/Trading: Buying and contract growing is done both in the Netherlands and abroad, from a network of dedicated growers. In the Netherlands alone, around 150 dedicated growers tailor their production (in total some 4,500 hectares) to Bakker's demand.
- Logistics services: A wide range of services from logistic planning and operations to quality control and transport. Operations include sorting and packaging of fruit and vegetables, ripening of bananas/mangoes/avocados, order picking and distribution.
- R&D: Research into new developments in fields such as food safety, environment, health and taste.
