

Cycle of Freshness

**COMPANY PROFILE**

Located in Sofia, Bulgaria, UNIVEG Bulgaria EOOD was founded in 2006 as part of the UNIVEG group's expansion into Eastern Europe.

UNIVEG Bulgaria's activities currently focus on:

1. Logistic services to retailers and producers: offering a temperature-controlled logistic and transport solution for all their fresh produce (including processed meat and dairy) as well as frozen products.
2. Foodservice: supply chain management of food products from import, to storage, order picking and distribution to the restaurants in major Bulgarian cities.
3. National transport: daily temperature-controlled transport lines (chilled and frozen) from Sofia to more than 30 cities throughout Bulgaria and back to Sofia.

During summer 2010, UNIVEG Bulgaria will move its activities from its current location to its newly built 8,000 m<sup>2</sup> temperature-controlled warehouse, located near Sofia's east ring road. The warehouse offers storage for all types of food products.
