

Cycle of Freshness

COMPANY PROFILE

Based in Spalding, UK, the company was formed in 1988 under the name Malet Azoulay. The business is recognised as an industry-leading supplier to the UK supermarket and food processing sectors.

A wide range of fresh products are distributed from a state-of-the-art cold storage and ripening centre, accredited to the most demanding industry standards. UNIVEG Katopé UK currently employs 200 permanent colleagues, handling and ripening 7 million cartons annually.

CORE BUSINESS

- The direct importation, ripening, packing and distribution of fresh fruits, vegetables and dried fruits throughout the UK and Ireland.
- **UNIVEG Katopé UK** is one of the country's leading stone fruit, exotic fruit and vegetable suppliers, where product ripening is considered a key point of difference.
- Subsidiary **UNIVEG Direct** offers a wide range of products including citrus, deciduous and grapes, utilising the UNIVEG grower base and shortening the distribution chain to achieve a cost effective offer to customers.
- In the recent years, the business has established a market leading position in the importation and distribution of Fairtrade and organic produce. This represents approximately 20 % of the overall business activity.
- A broad skill base within the business has allowed **UNIVEG Katopé UK** to offer a tailored approach to meet the category requirements of individual UK retailers.
