

Cycle of Freshness

COMPANY PROFILE

UNIVEG South-East Europe was founded in July 2009 in Zadar (Croatia) and supplies fresh, competitive and reliable commodities as full service provider.

It imports fruit & vegetables to the South-East European countries coming from overseas and develops new business in markets like Croatia, Slovenia, Serbia and other countries in the region.

The South-East region is a strategically important region for UNIVEG, not only in terms of import but also for export and sourcing. The climate is favourable for production of a wide range of agricultural produce, including fruit & vegetables.

CORE BUSINESS

- Import and transit of overseas goods from different origins to the countries in the South-East region.
- Sourcing, buying and contract growing from selected suppliers overseas.
- Research and development: focus on new varieties of vegetables, taste development.
