

Cycle of Freshness

COMPANY PROFILE

This company was founded in 1982 as a member of the BOCCHI group and joined the UNIVEG group in 2006. It is located in Valencia, the main citrus fruits production zone in Spain and an important strategic area in trading fruit and vegetables.

CORE BUSINESS

- Import and distribution of UNIVEG products produced in the Southern Hemisphere for the Spanish market are handled by UNIVEG Distribution Spain.
 - Recently, we have started marketing organic products and fresh-cut produce.
 - Since 1990 significant participations in companies dedicated to the production of agricultural products have been acquired by the company.
 - In the last few years exports to countries of Eastern Europe and some American countries (United States, Canada and Brazil) have increased significantly.
- It initially focused on marketing, trading, transport and distribution of citrus fruits, being extended to all varieties of Spanish fruit and vegetables, in foreign markets, mainly in Germany and the rest of Europe. Today export of vegetables towards other European countries is an important business.
