

Cycle of Freshness

#### COMPANY PROFILE

The company was established in 1995 under the name MBM SA in Gdansk. In 1996 it started to supply cash & carry chains and supermarkets. In 2001 a majority stake was acquired by Uni-Veg Import changing its location to Zabia Wola near Warsaw from where the main logistic activities are being carried out.

The company has grown significantly thanks to an increase of potential retailers operating in Poland. As a result of further expansion a second location was established in Poznan.

The surface of the warehouse in Zabia Wola is 22.500 m<sup>2</sup> for cooled operations and 4.500 m<sup>2</sup> for frozen operation. The surface of the warehouse in Poznan is 5.000 m<sup>2</sup>.

#### CORE BUSINESS

- Logistic service provider for fresh and frozen food products towards major national and international retail groups.
- Services include reception, storage, order-picking and forwarding of temperature-controlled food products.
